

Netspeed 2006

October 18- 20, 2006
Crowne Plaza Chateau Lacombe
Edmonton

Netspeed is designed for decision-makers, librarians, technical staff and trustees to explore new technologies in a highly connected world.

Keynote Speakers:

Perceptions of Libraries and Information Resources: Results of an OCLC Study

Catherine de Rosa

VP, Marketing and Library Services, OCLC

Using Collections to Make Connections: Social Software Initiatives for Libraries

Beth Jefferson

Founder, BiblioCommons

Innovation and Automation: The Georgia PINES Project

David Singleton and Julie Walker

Georgia Public Library

Netspeed features:

- Plenary and breakout sessions highlighting library and technology leaders from across North America
- Tradeshow featuring technology vendors and solutions
- Networking opportunities

www.thealbertalibrary.ab.ca

Alberta

Netspeed provides information to help library staff and trustees work effectively with current technology in libraries and the opportunity to investigate emerging technologies.
